

MOHAMMED SADDAM K.S

+91 7907424677 — saddam24tech@gmail.com — LinkedIn — GitHub — Kerala, India

Professional Summary

Motivated **AI & Data Science graduate** with strong foundations in **Python, SQL, Machine Learning, and Data Analysis**. Experienced in developing **AI-driven applications, workflow automation systems, and data processing pipelines** using **PostgreSQL, n8n, and OpenAI APIs**. Skilled in **data preprocessing, exploratory data analysis (EDA), model evaluation, and problem-solving**. Seeking entry-level opportunities in **Data Science, Machine Learning, or AI Engineering** to apply analytical and technical skills in real-world environments.

Education

B.Tech in Artificial Intelligence & Data Science <i>Excel Engineering College, Tamil Nadu, India</i>	2020 – 2024
Higher Secondary (Computer Science & IT) <i>Govt. Model Boys VHSS, Kerala, India</i>	2018 – 2020

Internship Experience

Data Science Intern <i>RP2, Kerala, India</i>	Oct 2025 – Mar 2026
– Performed data cleaning, preprocessing, and exploratory data analysis (EDA) using Python on structured datasets. – Applied machine learning model development and evaluation techniques for classification and predictive tasks. – Worked on feature engineering and data transformation to improve dataset quality and model performance. – Supported data visualization and reporting using Python libraries and Excel for insight communication.	
AI Intern <i>Dev Point, Hyderabad, India</i>	Jun 2025 – Sep 2025
– Developed AI-based solutions using Python and machine learning concepts for internal projects. – Implemented feature engineering and model evaluation to enhance model accuracy and performance. – Assisted in building AI-driven workflows and automation systems for data processing tasks. – Contributed to model testing, debugging, and performance optimization in AI applications.	

Technical Skills

- **Programming Languages:** Python, SQL
- **Data Science & Machine Learning:** Scikit-learn, Pandas, NumPy, Data Preprocessing, EDA, Feature Engineering, Model Evaluation, Supervised Learning, Unsupervised Learning
- **Deep Learning:** TensorFlow, PyTorch, CNNs, RNNs
- **Data Visualization:** Matplotlib, Seaborn, Power BI
- **Databases & Tools:** PostgreSQL, Git, GitHub, n8n
- **AI Concepts:** NLP, Computer Vision, Retrieval-Augmented Generation (RAG), Workflow Automation
- **Soft Skills:** Problem Solving, Analytical Thinking, Team Collaboration, Communication

Projects

Document Intake Pipeline (n8n + PostgreSQL + OpenAI)

- Designed and automated a **document processing pipeline** using n8n, PostgreSQL, and OpenAI APIs
- Processed **PDF and Word documents into structured JSON data** for reporting workflows
- Integrated **HTML-to-PDF generation** for automated professional report creation
- Implemented **automated email notification workflows** with generated PDF attachments

RAG Chatbot using Vector Database

- Developed a **Retrieval-Augmented Generation (RAG) chatbot** for document-based question answering
- Implemented **vector search and embedding-based retrieval** to improve contextual response accuracy
- Integrated **LLM workflows** for context-aware response generation

Sign Language Recognition Translator using MediaPipe

- Built a **real-time sign language recognition system** using Python and MediaPipe
- Applied **computer vision and machine learning techniques** for gesture detection and classification
- Converted gestures into **text and speech outputs** for accessibility support

Certifications

- IBM Data Science Certification
- DataCamp Python Certification
- Kaggle Data Visualization
